MENDHA-NEVADA SOON TO PAY DIVIDENDS

Ploche Property to be Bread Winner Before First of Year-Issues Report to Its Stockholders.

Before the first of the year one mine will be paying dividends in the Ploche country, and that is the Menda-Nevada Mining company, which in the early days contributed some \$500,000 to the great wealth of Pioche, Stockholders of the company are receiving statements issued in accordance with the Nevada laws telling of the work being done and announcing that within 9 days President Thomas J. Osborne be-lieves the dividend period will arrive. In the past 10 days the company has shipped eight carloads of ore to the market, and from now on the company will ship in the neighborhood of three or four cars of ore a week.

The statement relative to the company and bearing the signature of T.

The statement relative to the company and bearing the signature of T. J. Osborne, president, and Murray C. Godbe, secretary, says in part:

"The Mendha-Nevada Mining company is a corporation organized under the laws of Utah.

"The name of each mining claim, etc., is the Melissa, the Hamburg, the Mendha, the Mendha-East, the Navy, the Navy-West, the Battery, the Northside, the Army, the Southside the Northside, the Army, the Southside No. 1, and the Navy and the Mendha-East milisites, all owned by this company. All the claims are being worked by one general system, and all are situated in the Highland mining district, county of Lincoln, state of Nevada, about eight miles west of the town of Pioche, and which is the nearest postoffice.

"The title to the Melissa and the Hamburg claims is in fee simple, having been patented. Title to all the other claims is possessory. The claims were acquired by the company by purchase, from T. J. Osborne, John E. Cook, and William Lloyd, the then owners.

"The surface improvements are

Cook, and William Lloyd, the then owners.

"The surface improvements are grouped principally on the Melissa and the Southside claims. On the Southside claim, on the Southside claim, unpatented, there are three dwelling houses; four miners' sleeping cabins and assay office, all built of lumber. On the Melissa claim, patented, are situated a hoisthouse, blacksmith shop, two ore houses, head frame over a 900 foot shaft, stable, gasoline storehouse and boardinghouse, all built of lumber. One 40-horsepower Fairbanks. Morse gasoline hoist, with air compressor, tanks, pipes, etc., mine cars, tools, drills, blacksmith outfit, etc., all being in actual use and operation by said company on its patented and unpatented ground.

company on its patented and unpatented ground.

"The value of said buildings, machinery, etc., is approximately \$9,000.

"The total number of days' labor covered by the statement has been 1,207% on unpatented property, and 1,000 days on patented property. Total amount of money paid out for labor therefor was \$7,678.75.

"The company is authorized to issue 1,000,000 shares at a par value of \$1 each. Only one class of stock.

TREASURY STOCK.

"Treasury stock was originally set aside to the amount of 100,000 shares. No. treasury stock has been offered for sale, and none sold during the past six months as covered by this statement. The number of shares of treasury stock remaining in the treasury, and unsold at this time is 73,000.

"The amount of money actually paid by such company to each of its officers, superintendents, or to other persons, was: Paid to the general manager, \$900; office rent, \$120; advertising, \$140.

tising, \$140.
This statement or report covers the period between Dec. 20, 1909, and June

20, 1910."

Prest. Osborne and Manager John R. Cock have also issued the following statement over their signatures:

"The foregoing statement of the Mendha-Nevada Mining company is made and malled to stockholders under the Nevada law of 1909, generally called the Publicity act," and which is intended to acquaint stockholders of mining companies operating in Nevada. mining companies operating in Nevada with property assets, and whether or not treasury stock is being sold, and

with properly assets, and whether or not treasury stock is being sold, and to what uses the proceeds are put.

"It does not relate to the receipt of money from sales of ore, nor the details of mine operation. These will be supplied from the company's office in ordinary reports.

"Pioche is the shipping station for the Mendha-Nevada company. The branch line of railroad leading from Pioche to Callente, together with about 75 miles of the main line of the San Pedro, Los Angeles and Sait Lake railroad, was washed out by heavy floods on Jan. I last and traffic to Pioche was not resumed until June 27, fone week after the foregoing statement was made).

READY TO SHIP.

READY TO SHIP.

"During this period of practically six rionths no ore shipments were made from the company's mines, but the property continued to operate with a decreased working force, and while incurring indebtedness for this purpose, yet the ore developed during that period, and now ready for extraction and shipment, exceeds in value, several times over, the amount of indebtedness incurred.

incurred.

"Immediately on re-opening the road, ore shipments began. With the past week eight cars have left Pioche, and the shipments are now expected to continue at the rate of four or five cars per week, indefinitely. This ore is sold to the United States Smeltore is soid to the United States Smelting company at Salt Lake, under contract. It ranges in value from \$25 to \$30 per ton. Within the next 90 days it is hoped the dividend period for the property will be in sight, though

Bream has it"

while extracting and shipping ore it is also the desire of the management to add to the present mine machinery and to the present mine machinery and to continue opening up new ore reserves, as has been done in the past. That the ore will continue, there is little doubt, as it has been mined from the surface to the present workings, approximately 1,000 feet, practically unbroken, and shows strongly in the deepest workings."

TRADING CONTINUES FAIR.

Prices of All Securities Become Slow On Local Exchange.

Although trading came up fair this morning prices were slightly lower on the local stock market, Iron Blossom was slightly higher early in the market, but it lost a cent before the close. Lower Mammoth went down with a gloom, It struck 16 ½ cents and 1,000 shares went over the rail t 16 cents

at 16 cents.

Nevada Hills which has been the star performer for several weeks was lower today, due to some liquidation and profit taking. Only 1,000 shares changed hands this morning on the local market although there was great activity in the stock in New York and San Francisco. May Day was carried away at 1 cent a share today.

The total number of shares discontinuous discon

The total number of shares discosed of this morning was 29,400 for which the brokers shelled out \$8,487.

of rich copper ore, containing consider-

able native copper, in the Utah United

Copper company property in Beaver

ounty, 12 miles west of Milford, has

caused considerable talk, as this is said

to be the first rock of that character

ever found in the Beaver Lake district

A. J. McMullen, secretary of the com-

A. J. McMullen, secretary of the company, brought some of the samples to town, which are now being assayed, but estimates place the copper values at not less than 40 per cent.

The ore was struck on the 200-ft level, and although no great quantity of such rich stuff is looked for, the mere fact that such ore can make in that ground means much to the property and adjoining properties, some of which are such well known groups as Walter James' Black Rock, ground owned by Samuel Newhouse, and is about two miles west of the famous old C. K. mine.

The plan of the company is to sink the shaft to the sulphide zone, which

The plan of the company is to sink the shaft to the sulphide zone, which it is expected to be encountered near the 400 level, and this unexpected strike will not divert the management from its original plans, and the shaft is still being pushed on through the ore body to depth.

Gold Ore Found on Carson Property

TRYING UTAH PLAN.

Mammoth Copper Installing Bag House at Its Plant.

The United States Smelting, Refining & Mining company shares have been active recently and the buying has been of good character. This has been based mainly on the good reports coming from the company's property and the fact that present business is favorable, says the Boston Financial News.

says the Boston Financial News.
At present the chief interest centers in the new baghouse constructed at the Mammoth Copper company to obviate the smelter fume damages. The company will soon have the opportunity to demonstrate its contention that the baghouse system will work as efficiently in copper as in lead smelting. Utah people can testify to the absolutely successful operation of the system with lead smelting, for nothing but this success permits the company to continue operating its big plant at Bingtinue operating its big plant at Bingham Junction. The company officials and engineers are equally certain that the baghouse in copper smelting will remove all danger from tumes and poison reaching the outer air, and the bagreaching the outer air, and the bag-house at the Mammeth plant in Cali-fornia has just been started and is giving good satisfaction. This bag-house represents an installation cost of \$250,000, bringing it up to about the same cost as the Utah lead baghouse plant. Whether or not the United States company will proceed with the installation of the copper baghouse at the Utah plant remains to be seen, al-though it is understood that plans for such a plant are now completed.

CONCENTRATES. Notice was posted yesterday of the purchase of the seat of the late James L. Hamilton on the local stock exchange by George H. Dern.

A. D. Knowlton, a local mining engineer, declares that there is a growing activity in the old Argenta mining district in Morgan county. A new campaign of work has been started at the Carbonate Hill and work has also been moving along at the Carbonate Gem.

It is reported from Rawhide that Rawhide Queen and Rawhide Coalition Mines company are to consolidate their properties which will probably be known under the name of the Queen-Consolidated Mines company. The capitalization will be \$3,000,000 the same as the Coalition. The basis of exchange will probably be two of Coalition for one of Queen.

R. J. Evans has just returned from a visit to the Magnolia Southern Oil com-pany property in the Kern River country, California. At the time he left there Mr. Evans says the new well was down 500 fest.

Yesterday was delinquent sale day for the Yankee Consolidated. Only 1,265 shares remained to be sold.

LOCAL MARKETS

In today's markets, the evidence of scarcity in vegetable and fruit products has become more noticeable, for the unprecedented drouth has cut down the intermountain production very noticeably. Were the deficiency not so well made up from California. Salt Lake consumers would be put on short rations. New potatoes are scarce, as are also dry onions, which are in great demand. However, the Pacific coast is able to prevent a famine in these articles. This is the between seasons in oranges which are now comparatively few, and selling at \$4.50 and \$5.00 per case. Cantaloupes are in demand, and selling as fast as they arrive. California tomatoes are arriving in good quanties, and in fair condition. California peaches and apricots are also at hand to make up the local shortage, but the pears arriving are green, and must take time to ripen. The quotations obtaining in today's markets are as follows: Salt Lake consumers would be put on

BUSINESS SMALL CLOSE LIFELESS

New York, July 15 .- Transactions in stocks at the opening today were on a small scale but a general advancing tendency was perceptible, Soo Line and Amalgamated Copper rose 1 and Reading. Wabash preferred, Chicago & Northwest ern and Republic Steel large fractions Rock Island preferred lost 1 and Union Pacific %.

Pacific %.

Speculation was feverish and uncertain with prices ultimately declining. All of the important stocks covered a wide fractional range and the movement in St. Paul, Reading and American Smelting reached a point. Baltimore & Ohio rose 2. Consolidated Gas and International Harvester 1 and National Lead and Republic Steel 1%. The market was weak in spots at 11 o'clock, Canadian Pacific showing an overnight loss of 1%, and Union Pacific. Atlantic Coast Line, United Steel, Brocklyn Transit, Anaconda and American Steel Foundries I.

The early buying reduced the short interest when completed and prices were allowed to sag. The upturn in wheat and cotton and the Pennsylvania labor troubles were unfavorable influences. Canadian Pacific lost 3 and St. Paul. Southern Pacific lost 3 and St. Paul. Southern Pacific and Union Pacific 1. Wheeling and Lake Eric first preferred advanced 1%.

Bonds were irregular.

Fractional rallies threw the market into semi-stagnation. The bulls showed some hesitation in following up the rally, although no important selling was encountered.

Many of the floor operators took advantage of the increasing dulness of the market to begin their week end holiday and in consequence there was scartely any business transacted in the room. The market showed a hardening tendency.

The market closed almost lifeless. Prices moved slowly towards recovery in the last hour but the dealings were hardly more than nominal. Chicago & Alton rose 2. Delaware & Hudson fell 1½. Westinghouse Electric 14, and Pittsburg, C. C. & St. Louis, and St. Louis and Southwestern preferred 1. There was a later sag of a fraction in the general list.

LIVE STOCK.

CHICAGO.

Chicago, July 15.—Cattle—Receipts, estimated at 2,000; market strong. Texas, steers, 4.15.06.60; western steers, 4.15.06.60; stockers and feeders, 3.6005.15; cows and helfers, 6.00.07.00; calves, 6.75.05.50.

PRODUCE. CHICAGO.

CHICAGO.

Chicago, July 15.—Reports of an exodus from western Canada because drouth and heat had left many settlers no crops to harvest or subsistence for winter were coupled today with forecasts of continued heat in the Dakotas and Minnesota. Severe hot weather in Russia and along the Danube led to excitement and higher prices at Liverpool and with the absence of rain in the American northwest produced similar results here. There was big buying through commission houses from the outset. Stiff advances ensued. Most of the longs had sold on yesterday's bulge and therefore had little for sale. First prices were 1s to 2 higher, September started \$6.00 to the \$1.00\frac{1}{2}\$, up at \$1.00\frac{1}{2}\$, and touched \$1.00\frac{1}{2}\$, up at \$1.00\frac{1}{2}\$.

KANSAS CITY.

KANSAS CITY.

Kansas City, July 15.—Cattle—Receipts, 2,000; market strong, Native steers, 5.000 8.25; cows and helfers, 2,5007.00; stockers and feeders, 3,2505.75; bulls, 3,250 4.50; calves, 4.000 8.20; western steers, 4.7507.25; western cows, 3.0005.25.

Hogs—Receipts, 7,000; market, light, weak; heavy, strong, Bulk of sales, 8.400 8.75; heavy, 8,3008.46; packers and butchers, 8.4008.65; light, 8,900 8.80; pigs, 8.250 8.45.

OMAHA.

bulge and therefore had little 10 sate. First prices were by to 2 higher, September started \(\frac{1}{2} \) \(\frac{1}{2} \) to 10 \(\frac{1}{2} \) and at 1.00 \(\frac{1}{2} \) to 1.00 \(\frac{1}{2} \) and to uched 1.00 \(\frac{1}{2} \).

Corn was active but unsettled. There was much demand for the September option but commission houses had resting orders in profusion. Fine weather for the crop tended also to ease off prices. September opened \(\frac{1}{2} \) to \(\frac{1}{2} \) up with wheat at 60 \(\frac{1}{2} \) to \(\frac{1}{2} \) and reacted to 60 \(\frac{1}{2} \).

Private wire concerns and shorts were buyers of oats. Country longs unloaded. The market opened \(\frac{1}{2} \) \(\frac{1}{2} \) \(\frac{1}{2} \) and fell back to 38 \(\frac{1}{2} \) (32 \(\frac{1}{2} \) and fell back to 38 \(\frac{1}{2} \) (33 \(\frac{1}{2} \) (32 \).

Shorts in provisions were covering a little. The market opened loc, higher to 2\(\frac{1}{2} \) lower and remained at about that level for a time. First prices for September were: Pork, 21.85; lard, 11.87\(\frac{1}{2} \); ribs. 11.80.

Wheat—Temperatures of 100 in the shade throughout Manitoba and withering wheat sent quotations to top prices of the season. Profit-taking caused a reaction rut the close was strong with September at 1.07 to 1.07\(\frac{1}{2} \), a net gain of 2\(\frac{1}{2} \) \(\frac{1

New York, July 16.—Raw sugar, steady; muscovado, 89 test, 2.80; centrifugal, 96 test, 4.30; molasses sugar, 89 test, 3.55. Refined, quiet; crushed, 5.85; granulated, 5.15; powdered, 5.25. Coffee—Spot, steady; No. 7 Rio, 8½; No. 4 Santos, 9½.

Chicago, July 15.—Butter — Steady. Creamerier, 24@28; dairies, 23@25. Eggs—Steady, at mark, cases included, 10@14; receipts, 10.297; firsts, 15. Cheese—Steady, Daisies, 15%@15, Tecley,

Let's be honest

Let's stop cavifing at the rich man and attributing his success to luck. Let's see if there isn't

another reason than blind luck for some men's getting along in the world while others fail. Isn't it true that while of casionally a man stumbles on to fortune, he usually acquires it by patient work and regular

savings in the beginning. Later the savings work also. A young man's surest pathway to fortune is by a connection with a strong bank which will help him save his money and so form habits of thrift. Young men who show the right qualities of character

are in constant demand. Young men's accounts are invited by

The National Copper Bank
